

1. Commitment to Net Zero

Dahri Consulting Ltd is committed to achieving **Net Zero carbon emissions by 2050**, in line with the UK Government's **2050 Net Zero Strategy** and the **NHS Net Zero Supplier Roadmap**.

We recognise the need for **early action**, and we aim to reduce emissions progressively, with interim targets aligned to the NHS Supplier Net Zero deadlines:

- **By 2030:** Reduce operational (Scope 1 and 2) emissions by 50%.
 - **By 2040:** Achieve Net Zero for **direct emissions (Scope 1 and 2)**.
 - **By 2045:** Align Scope 3 emissions with the NHS Net Zero Supplier Roadmap.
 - **By 2050:** Achieve full Net Zero across **all emissions categories**.
-

2. Baseline Emissions Footprint

We have identified 2024-2025 as the **baseline year** to measure our emissions and track reductions. We will monitor and report on:

Scope 1 – Direct Emissions

- No company-owned vehicles or facilities – minimal emissions from fuel use.

Scope 2 – Indirect Emissions

- Energy usage in office space and IT operations.

Scope 3 – Supply Chain & Indirect Operational Emissions

- Business travel (train, flights, car hire, mileage claims).
- IT infrastructure and data storage energy use.
- Employee commuting.

- Procurement and supplier-related emissions.
-

3. Carbon Reduction Measures

Dahri Consulting Ltd has implemented and committed to the following sustainability initiatives:

Energy Efficiency & Digital Transformation

- **Paperless operations:** Transitioning to fully digital case management for fraud investigations.
- **Cloud-based secure document storage:** Reducing the need for energy-intensive physical storage.
- **Office energy efficiency improvements:** LED lighting, motion sensors, and renewable energy sources.

Sustainable Business Travel & Remote Working

- **Reduce travel emissions** by shifting 80% of fraud investigations to remote analysis by 2025.
- **Adoption of low-carbon travel alternatives**, including rail over air for domestic travel.
- **Encouraging remote/hybrid work** to reduce employee commuting emissions.

Sustainable Procurement & Supply Chain Commitments

- Partnering with **low-carbon suppliers** who align with NHS sustainability requirements.
- **Minimising procurement emissions** by prioritising **local sourcing** and environmentally friendly materials.

Carbon Offsetting & Green Initiatives

- Exploring **partnerships with carbon offset programs** to neutralise remaining emissions.
 - **Supporting biodiversity projects** that contribute to the NHS's green space and health initiatives.
-

4. Monitoring, Reporting & Compliance

To ensure accountability, Dahri Consulting Ltd will:

- **Measure and publish annual emissions reports**, including Scope 1, 2, and relevant Scope 3 emissions.
- **Review and update the Carbon Reduction Plan annually** to align with NHS Supplier Roadmap updates.
- **Engage with sustainability consultants (e.g., Alectro) to refine carbon reduction strategies.**
- **Conduct internal sustainability audits** to assess and improve environmental performance.

We will also publish an **Annual Carbon Reduction Progress Report**, summarising key milestones and impact measurement against our reduction targets.

5. Governance & Responsibility

Our **Environmental & Sustainability Lead** is responsible for implementing this Carbon Reduction Plan. The plan is **board-approved** and will be reviewed annually to ensure compliance with NHS Net Zero Supplier requirements.

Dahri Consulting Ltd is committed to transparency and will publish all updates to our **Carbon Reduction Plan on our website**.

For further inquiries or partnership opportunities regarding sustainability initiatives, please contact **[Insert Contact Details]**.
